To Whom It May Concern:

Over the last several years, I have had several opportunities to work with Dr. Roy Hoyt in a variety of activities connected with school accreditation. I have found Dr. Hoyt to be a knowledgeable and dedicated educator.

During the past years, he has chaired accreditation visiting teams to several secondary schools across the state. His observations, leadership and reports of these school visits were exemplary. He displayed a strong knowledge of curriculum, educational philosophy, and the school improvement model used for accreditation.

As a member of the visiting teams to various schools, I found him to be professional, well organized and non-judgmental. Dr. Hoyt solicited the views of the team and did not try to direct us to any particular point of view. He was skillful in his interactions with the team, the school staff and students, and exhibited a depth of knowledge not apparent on the surface.

In view of my personal experiences with Dr. Roy Hoyt, I can heartily recommend him for an administrative position at the district level.

Sincerely,

A handwritten signature in cursive script that reads "Georgia Loutensock".
